**WE REACHED A MILESTONE
IN BLADE PRODUCTION!**

In early 2020, Duramatic's total blade production will surpass 250 million. That's a lot of mower blades - any way you cut it!

Duramatic blades are ISO certified and made in the USA. Engineered for maximum performance, guaranteed quality blades from Duramatic are built for endurance and a finer, cleaner cut.

- > More particle retention time under deck improves mulching
- > Requires less power for improved engine performance
- > Less vibration prevents pre-mature component wear
